Forecast for Wednesday 28 Sep 2022

Weather: Cloudy start with frequent showers through the morning. Sunny spells developing for a time, most frequent in the east but still a risk of showers during the afternoon. Cloud then thickening ahead of a band of heavy rain through the evening.

Chance of cloud-free hill tops above 800m: 60% at first improving to 80% during the morning. Lowering to 30% in the east during the evening and 60% in the west.

Low Cloud and visibility: Cloud obscuring some summits above 500m during the morning, and during any other showers later in the day. Cloud returning above 500m, especially across eastern hills during the evening. Good visibility outside of cloud and rain with distant hills visible, but falling to Moderate or Poor during showers and any rain.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A chilly feel to the day, especially in the brisk winds over the tops and during any showers. Feeling warmer in sunny spells. Conditions may deteriorate notably as showers move through, with waterproofs recommended.

Forecast for Thursday 29 Sep 2022

Weather: Rain breaking up to showers during the early hours, with clear spells. A largely fine day follows, with plenty of dry weather and sunny spells but the ongoing risk of a few showers. These easing during the evening with largely clear skies and light winds.

Maximum wind: Northerly 15-20mph gusting 25-30 mph easing during the evening.

Chance of cloud-free hill tops above 800m: 40% overnight, improving to 70% by midday, and near 100% by the evening.

Low Cloud and visibility: Cloud obscuring tops above 500 metres at first, lifting and breaking by day. Generally very good visibility, falling to moderate with any showers.

Temperature: **Valleys:** Plus 6 Celsius rising to Plus 17 Celsius.
At 800m: Plus 5 Celsius rising to Plus 10 Celsius
Freezing level: Above summits
